Care Management

Care management is an important service that includes coordinating care and services that will help you deliver on the goals you identified in your Care Plan. Every Home Care Package, including those being self-managed will require some level of care management.

Approach to care management

Our approach to care management puts YOU in control of your services.

Personalised care is embedded in our WISER philosophy and is designed to build on your skills and wellness. By providing basic guidance and support with care and compassion, we aim always to deliver high quality service.

If you require mobility aids at home, home renovations, general yard upkeep, or a regular meal delivery service, our skilled case managers will help you to manage any changes in support needs, and to coordinate your supports effectively.

*Our accommodating care planners can guide you to engage in care at your home, or at one of our beautifully appointed **day-respite centres** located across the Hastings, Macleay and Camden Haven areas.*

Omnicare's effective care management honours the individuality of clients AND carers. We're proud to offer unique and invaluable support, training, education and chat group opportunities so carers are equipped and prepared for challenges in their role.
